

Safe storage and transfer of hazardous chemicals

IPI Global brings you a wide range of **safe, cost effective solutions** for storing, transferring and dispensing hazardous chemicals through a leak-proof, closed system.

IPI's product offer includes:

- ◆ **Micro Matic closed liquid transfer systems** for plastic, steel and stainless drums and IBCs. They include stainless steel valves and couplers equipped with self venting and vapour recovery connections.
- ◆ **Stainless steel containers** from 10 - 1000 litres with U.N. certification.
- ◆ **P.U. coated stainless steel containers** from 10 - 50 litres with U.N. certification

IPI Global packaging systems are used with a wide range of hazardous and toxic chemicals such as:

- ◆ **High purity solvents:** *methanol, ethanol, acetone, acetonitrile, tetrahydrofuran, xylene, toluene, etc.*
- ◆ **Chlorinated solvents:** *trichloroethylene, perchloroethylene, methylene chloride.*
- ◆ **Specialty chemicals:** *hydrazine, vinylidene chloride, methyl iodide, TDI, pentanes, acetaldehyde, formaldehyde, benzyl chloride, aromatic amines, isopropyl alcohol etc.*
- ◆ **Cleaning solutions:** *caustic soda, peracetic acid, phosphoric acid etc.*
- ◆ **Agro-chemicals:** *pesticides, seed-treatment chemicals*

Key benefits

- ◆ Enhanced safety in chemical transfer
- ◆ Prevention of exposure to toxic and hazardous chemicals
- ◆ Leak-proof, no spillage
- ◆ Quick and easy to use
- ◆ Inert gas or pump dispense
- ◆ Reduced waste disposal costs
- ◆ Robust and reusable for many years

User references

IPI safe packaging and dispense systems are used by market leading chemical companies such as:

- ◆ BASF
- ◆ Bayer and Bayer-Lanxess
- ◆ Dow Chemicals Europe—Safechem
- ◆ Sigma Aldrich
- ◆ Fischer Scientific
- ◆ Rohm & Haas
- ◆ Ciba Speciality chemicals
- ◆ Solvay
- ◆ Kemira / Tennants
- ◆ Lansdowne chemicals
- ◆ Degussa
